

MaskPro – Liquid Masking Film

Professional Surface Protection for Construction & Renovation

MaskPro is a professional liquid masking film designed to protect sensitive surfaces during construction, painting and renovation works. Once applied it forms a temporary elastic protective film that shields surfaces from paint, plaster, dust and scratches.

After the work is completed the protective layer can be easily peeled off leaving the surface perfectly clean. MaskPro helps professionals reduce cleaning time and achieve a perfect finish.

Key Benefits

- ✓ Easy On, Easy Off
- ✓ Protects Windows & Frames
- ✓ Suitable for Glass, Aluminium, PVC
- ✓ Saves Labour Time
- ✓ Consumption: 300–350 ml per m²
